MAURO TOGNERI

Mauro has been in Industrial Instrumentation and Control industries since 1961 as an engineer, independent consultant, owner, manager, Vice-President, President, and outside Director, designed products and systems, founded and managed the growth of entrepreneurial technology based companies with operations in North and South America, Europe and Asia. He is currently a management consultant after retiring in December 2003 as Vice-President and Group Manager, responsible for a group of technology companies with sales of over $40 million and operations in U.S., Germany and Japan. Mauro holds a number US patents in the instrumentation field.

Mauro is the co-founder and co-chair of the IEEE-USA Entrepreneurial Activities Committee and the Entrepreneurs Village virtual community in 2005. He developed the EAC community and is assisting the PACE Committee with web community development. Mauro is also a member of the IEEE-USA Innovation Institute Steering Committee and the Past Chair and current member of the Intellectual Property Committee of USAB/IEEE USA since 1988.
