

## ADEEB HAMZEY

Adeeb Hamzey, project engineer, Fossil and Hydro engineering department, Dominion, has twenty eight years of experience in the electric utility business. He started his career as an assistant substation design engineer, in T&D substation design and moved on to system operation, technical training, power station engineering, and fossil & hydro generation corporate engineering.

Adeeb's involvement with IEEE started since he was a student branch member at the Ohio State University, in 1978. He served in all elected offices of the IEEE Richmond Virginia Section. At the Region 3 level, Adeeb served as PACE Chair, Public Information Chair, and currently holds the Professional Activities Chair position. He served as chairman of the IEEE-USA Career Maintenance and Development Committee and trained as facilitator of IEEE Careers Phase II and Careers Transition. Currently he is a member of the IEEE-USA PACE Committee. Adeeb spoke at several IEEE-USA Professional Development Seminars on career planning, globalization, and engineering employment.

Adeeb holds a Bachelors degree in electrical engineering (BSEE) from The Ohio State University (1979) and a Masters degree in business administration (MBA) from Averett University (2004). He is married to Charlotte Cerne and they are rearing four children.
