

## TERENCE CARR

Terence (Ted) Carr is a Principal Electrical Engineer for Xcel Energy (formerly Southwestern Public Service Co) in the Transmission Engineering Operations group, Amarillo, Texas office. He began his career with Southwestern Public Service Company in Amarillo back in 1986 after graduating from Texas A & M University with a degree in Electrical Engineering. He received his Master's in Engineering Management in 1991 while working with the company. Ted's membership with IEEE began 1986 in Amarillo, TX and his elevation to Senior Member was attained in 2005. He became active with IEEE Section Leadership with the Panhandle Section in 1998 as its Treasurer. In 1999 and 2000 Ted held the offices of Section Vice-Chair and Section Chair, respectively. In October of 2003 Ted was invited to become the West Area Chair of Region 5 which marked his first entrance into the Region 5 Executive Committee. He held this volunteer position until approximately November of 2005 when he was appointed the Region's Professional Activities Coordinator. This move also put Ted on the IEEE USA Professional Activities Committee as a member. Ted is still currently active with these Committee appointments.
