

## DUSTY FISHER

Ms. Fisher has been addressing student issues, including the digital divide and public policy as it relates to privacy and security (COPPA) for over twenty years. Originating a variety of intern programs, Dusty received special notice from Pres. George W. Bush for her work with the community, and worked with the NYC program: City as Schools. As a consultant, she has developed online mobility solutions for government, education, and healthcare. She serves as the IEEE Region 5 Precollege Representative and is a member of the Denver Section.
