

EMANUEL VILLA

Emanuel started his bachelor's degree in Electronic Engineering at the Instituto Tecnológico de Chihuahua in Mexico, the first engineering university outside the Mexico's capital. In his second year, he joined IEEE as a student member. In January 2002, he worked for an automation company, and participated in several projects for different industries in Chihuahua, including the biggest Mexican mine and petroleum companies, PEÑALES and PEMEX, respectively and in October that same year, Emanuel received an automatic degree exemplification in Electronics, with a minor in Digital Design. Since 2006, Emanuel has been working for Transaction Graphics, Inc., a checks and business products printing company as a .NET and SQL Server programmer/analyst, where he currently works. He joined the IEEE Memphis chapter in January 2008 as Intersociety relationship representative and PACE Chair.
