

LEE STOGNER

Lee Stogner received the BSEE from Clemson University and Masters of Engineering from the University of South Carolina. Lee has over 30 years of design, consulting, project management and business development experience across a range of industries. Lee has driven growth at companies that include Digital Equipment, Fluor Corporation, Rockwell International and Milliken. Throughout his working career, Lee has been active in both local and international IEEE activities. A key goal of his IEEE work has been to promote Professional Activities as an important part of an engineer's life long career. Lee has also been active in promoting the use of the Internet by engineers through his presentations and short courses. He is a past IEEE-USA Vice President for Professional Activities and a past President of the South Carolina Council of Engineering Societies. Currently, Lee is the Chair of the South Carolina Engineering Cluster and a Director on the IEEE Board of Directors. Lee is also certified in Project Management by the Project Management Institute.
