

J. MICHAEL DAVIS

Mike Davis is the Associate Laboratory Director for the Energy and Environment Directorate at Pacific Northwest National Laboratory. In this role, Mike is responsible for ensuring that PNNL delivers outstanding science and technology solutions to the most important energy and environment issues facing the nation and the U.S. Department of Energy.

Mike was appointed in 1989 by President Bush as the U.S. Department of Energy's Assistant Secretary for Conservation and Renewable Energy. During his four-year term, he launched programs such as the U.S. Advanced Battery Consortium, the Renewable Energy Production Incentive and the Photovoltaic Manufacturing Initiative. He expanded the funding available for Conservation and Renewable Energy research programs from \$350 to \$850 million per year over three years. In October 1991, Mike received the Secretary's Gold Medal Award, recognizing him for charting "a new course of industry-driven, market-oriented research and development for the federal government." Mike is well-known nationally as a spokesperson for hydrogen, renewable energy and energy efficiency policy and technology issues. In addition to his government and industry background, Mike has owned and operated a private mechanical contracting firm. He served as an Associate Professor of Mathematics and Civil Engineering at the U.S. Air Force Academy following service in Vietnam.
