

DOUGLAS GORHAM, Ed.D.

Douglas Gorham is currently the Managing Director of the Educational Activities Department for IEEE. He oversees educational programs in continuing education, pre-university education, university education, global accreditation, US accreditation, standards education and Women in Engineering for IEEE. He has served as the staff lead in organizing several conferences involving engineering education, industry, government and pre-university educators. He is the staff lead in the creation and expansion of IEEE's Teacher In-Service Program and TryEngineering.org, and served as the staff lead for "Meeting the Growing Demand for Engineers and their Educators 2010-2020" held in Munich, Germany in November 2007 and for "Transforming Engineering Education: Creating Interdisciplinary Skills for Complex Global Environments" to be held in April 2010 in Dublin, Ireland.

Prior to his tenure at IEEE Doug served as a high school educator for 26 years including twelve years as a high school principal. He earned his Ed.D. in Educational Leadership from the University of Illinois Urbana-Champaign, a masters degree in Educational Leadership from Northern Illinois University and a bachelors degree in science education from Elmhurst College.
