Re: Employ American Workers Amendment to H.R. 1

Dear Senators Sanders and Grassley:

IEEE-USA is very pleased to endorse the proposed Employ American Workers Amendment to the American Recovery and Reinvestment Act (H.R. 1). In these difficult economic times, it is particularly important that banks and other institutions that are being supported by taxpayer funds are using those funds to create job opportunities for American workers here in the United States.

Thank you for your continuing leadership on these important issues.

Very sincerely,
