May 24, 2010

Institute of Electrical and Electronics Engineers, Inc.
2001 L. Street, N.W.
Suite 700
Washington, DC. 20036-4910

Dear Ms. Hirt,

Thank you for your letter dated April 6, 2010 to Secretary LaHood in support of the National Highway Traffic Safety Administration (NHTSA) hiring additional Electrical and Electronics Engineers. NHTSA is currently in the process of hiring a large number of engineers in direct response to the increased activities of the Agency. We would appreciate your support in directing members of your organization and their affiliates to the Office of Personnel Management’s USAJOBS website, https://usajobs.gov, where this hiring activity will be visible, and to also encourage individuals seeking employment opportunities to apply for these job vacancies.

The work of the Department of Transportation and NHTSA is exciting, relevant, and applies state-of-the-art research and techniques to solve real world problems. We constantly seek dynamic, energetic, and forward-thinking individuals to join our team to improve safety on the nation’s roadways.

If you have any further questions about these job vacancies, please contact Beth Williams in NHTSA’s Office of Human Resources at 202-366-2603.

Sincerely,

[Signature]

Gregory A. Walter
Senior Associate Administrator for
Policy and Operations
National Highway Traffic Safety Administration
