Awards and Recognitions

IEEE-USA Awards and Recognitions

The deadline to submit IEEE-USA award nominations has been extended to **Wednesday, 25 August**. IEEE-USA awards are presented in recognition of professional, technical, entrepreneurial and literary contributions to public awareness, and the understanding of engineering in the United States. 2010 award recipients will be honored during the 2011 IEEE-USA Annual Meeting in Austin, Texas. Nomination forms can be found online at: <http://www.ieeeusa.org/volunteers/awards/forms>

IEEE-USA Conferences and Meetings

2010 Future Media Fest

IEEE-USA in collaboration with Georgia Institute of Technology (GIT) is sponsoring a session on Future Engineering Skills: Future Media. This session is part of the GIT Future Media Fest held 4-7 October 2010. Experience an interactive mash-up of talent, ideas, trends and technology. Hear directly from top industry execs, talk with investors, meet interactive marketing experts, network with potential partners, and experiment real-time with open innovation. For more information and to register, go to: <http://guest.cvent.com/EVENTS/Info/Summary.aspx?e=901ff6df-e9ee-4843-a4a4-cd6f3d75eb2d>

2011 Annual Meeting Announcement

IEEE-USA's 2011 Annual Meeting, *Engineering in Motion* will be held 3-6 March 2011, in Austin, Texas. Mark your calendars! Join us to learn about IEEE-USA activities, and to receive PACE and leadership training.

Precollege Activities

USA Science & Engineering Festival

Join IEEE-USA at the Inaugural USA Science & Engineering Festival. Hosted by Lockheed Martin, this event will be the country's first national science festival, and will descend on the Washington, D.C. area in the fall of 2010. Opening on 10 October with a gala concert of amazing science songs performed by

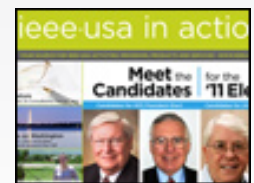

more than 200 children and adults at the University of Maryland, the Festival promises to be the ultimate multi-cultural, multi-generational and multi-disciplinary celebration of science in the United States. The Festival's culmination will be a two-day Expo in the nation's capital that will give more than 500 U.S. science and engineering organizations the opportunity to present themselves with a hands-on, fun, science activity to inspire the next generation of engineers and scientists. For more information, go to: <http://www.usasciencefestival.org>

IEEE-USA Publications

IEEE-USA in Action

IEEE-USA has launched the second issue of its new, interactive, online publication, IEEE-USA in ACTION. Made possible by the U.S. dues assessment, this new publication is free to all U.S. IEEE members.

IEEE-USA in ACTION is your new source for learning about the products, programs, services and activities that IEEE-USA has to offer, and to find out what IEEE-USA is doing on behalf of U.S. IEEE members.

In this issue, find out more about the 2012 candidates for IEEE-USA President and Member-at-Large positions. To view the July issue, go to: http://www.nxtbook.com/nxtbooks/ieeeusa/ieeeusa_0710/

IEEE-USA E-Book: *Engineers Can Write!*

This new IEEE-USA E-Book features engineers whose success in the literary world — including award-winning poetry, short stories and novels — is as strong an argument as you will find

to any claims that engineers can't write. Tom Moran, author of *Engineers Can Write!*, explores differences and similarities between writing and engineering, and offers some tips for conceptualizing writing to improve reports, articles, proposals and other documents.

To purchase this book or for more information on E-Books, go to: <http://www.ieeeusa.org/communications/ebooks>
